

PAYING THE BILLS!

SPEND!

**DID YOU
KNOW?**

**Turning off the TV and lights when
you are not in the room, and not
wasting water, can help save
money and the environment!**

TODAY'S CHALLENGE

- 🎧 Ask your Parent or an Adult to show you a household bill.
- 🎧 Ask them how often they pay the bills and how the cost is calculated. Compare it with previous bills they have paid.
- 🎧 With everyone staying at home, is the electricity bill higher than usual?
- 🎧 Can you think of ideas to keep the bills down? Turning off the lights and electronics when not in use? Not wasting hot water?
- 🎧 Put your ideas into action and see how much you save!

PAYING THE BILLS!

Teach your child about household bills and encourage them to help save money, as well as the environment!
