

CHA-CHING

Kid\$ At Home

MAKE IT? OR BUY IT?

SAVE!

DID YOU KNOW?

**You can save money by making
instead of buying.
Creating something with your
own hands can also help you
develop a great new skill!**

TODAY'S CHALLENGE

- Does your family order from food delivery services? Is it cheaper, or better for you and your family to cook meals at home?
- Choose a meal you sometimes buy or order for delivery. Can you cook it together instead?
- Compare the cost. Compare the quality. Was it healthier? Did it taste great or maybe you need more practice!
- Think about what else you could make at home instead of buying.

MAKE IT? OR BUY IT?

Time to get hands on with your child! This activity encourages your family to save money by cooking together or making things, instead of buying them.
