## **TODAY'S CHALLENGE**

- Have you ever made an impulse purchase, where you bought something quickly without planning or thinking about it?
- Think of a time when you did this. Why did you buy?
- Looking back, do you think it was worth buying? Why or why not?
- Would it have been better to save your money and spend it on something else?
- Next time you feel a strong and sudden urge to buy something, wait and ask yourself, is this the best way to spend my money?

**THINK BEFORE
