

# WHAT HAPPENS WHEN YOU LEND?

EARN!

**DID YOU  
KNOW?**

**When you lend money to  
someone, the other person  
needs to pay you back. Practise  
lending so you better  
understand how it works.**

## TODAY'S CHALLENGE

- What if you have lots of money and someone needs to borrow some?
- Ask your Parent or an Adult to role play with you. This time you are the bank manager and they are the customer.
- Discuss how much you can afford to lend to the other person. When do you want them to pay it back?
- Banks charge high fees when they lend money. What fee will you charge?
- Does the other person still want your loan? Why, or why not?

# WHAT HAPPENS WHEN YOU LEND?

This activity builds on your child's understanding of lending and borrowing. This time, help your child learn the concept of lending money.
