

YOUR FAMILY BUDGET!

SPEND!

**DID YOU
KNOW?**

**You are in charge! You can use
your planning and maths skills
to help your family with the
Monthly Budget for your house!**

TODAY'S CHALLENGE

- Think about all of the expenses in your household.
- How much does your family spend on food, utilities and entertainment, each week or month? Discuss with your Parents or an Adult to see if your guess matches what they actually spend.
- Do you have any ideas on how some of these costs can be reduced, or money better spent? Share your ideas with your Parents and maybe some of your great ideas can be adopted!

YOUR FAMILY BUDGET!

The process of earning money and spending it is invisible to a child. This activity helps to make it more visible, as well as giving your child an idea of where and how money is spent.
