

- Think of an item you wanted to buy because it was on sale. A new pair of shoes, a new toy? Did you buy it or not?
- Now think, did you really NEED it, or did you WANT it because it looked like a good deal in the shop?
- Always remember to shop around to compare other options. Or maybe even save a little longer and buy something even better.
- Next time you see something on sale, ask youself these questions to help you decide.

It can be tempting to buy something that's 'On Sale' because you think you're going to save money. But what if it breaks or isn't as good as you expected? Is it really worth it?
